

MISSION

To achieve and maintain sustainable profitability levels to safeguard our future investment plans and allow the Company to continue to go forward and flourish in a highly capital intensive and fiercely competitive market sector.

To achieve and maintain a leadership position by:

- Offering a premier, proactive customer focused service;
- Continuous advancement using the latest laser cutting technology and using IT and lean management strategies to gain maximum efficiencies;
- Constantly improving our services and products through the motivation, personal growth and development of all our people;
- Promote a culture of learning, training and equal opportunities within a safe working environment;
- Marketing and manufacturing, competitive parts and sub assemblies for quality partnering customers destined for UK and the global market place;
- Seeking and developing new areas of opportunity;
- Progressing through Total Quality.

To foster an open, learning and growing 21st century business culture with an enthusiastic and driven team inspired by achievement, responsibility and results.

Dee Wilde
Managing Director
The Laser Cutting Company
